We are pleased to advise that H.Waterhouse & Sons can supply Treated Pine in sizes from 25mm x 25mm to 300mm x 300mm. Please note some larger sizes are subject to availability.

We can supply sawn or dressed timber as Kiln Dried, Wet After Treatment or Kiln Dried Rougher Header. If you are unsure which of the products would best suit your requirements, one of our sales staff would be happy to assist you in helping make the correct product choice.

Our "State of the art" Treatment plant ensures maximum "Treatment Penetration" which guarantees a quality product is supplied to our customers regardless of "Hazard Class" requirements. We are able to treat to the following Hazard levels: H3, H4, H5 and H6 depending upon your needs, and once again if you are unsure as to which hazard level or level of treatment you require, one of our sales staff would be happy to assist you in making the correct choice. No job is too big or too small!

HAZARD RATING		TREATMENT OPTIONS
H3 EXTERIOR MODERATE RISK		APPLICATION: • Exterior / Above ground EXAMPLES: • Cladding • Fascia • Trellis • Fence palings / battens / rails • Decking • Window joinery  
H4 EXTERIOR HIGH RISK		APPLICATION: • In-ground contact EXAMPLES: • Pergola timbers • Fence posts • Landscaping material • Barn poles • Verandah Supports  
H5 EXTERIOR SEVERE RISK		APPLICATION: • In-ground or fresh water contact • Critical end use - Structural EXAMPLES: • House piles and stumps • Piling • Retaining walls • Horticultural supports  
H6 EXTERIOR EXTREME RISK		APPLICATION: • Marine environment EXAMPLES: • Marine piles • Slipways • Salt water exposure 

NATURAL DURABILITY OF SELECTED TIMBERS AND C.C.A PRESERVATIVE TREATED PINE (SAPWOOD)

CLASS 1	CLASS 2	CLASS 3	CLASS 4

A GUIDE TO WORKING SAFELY WITH TREATED TIMBER

WEAR

- Gloves
- Goggles
- Mask

DON'T

- Burn it
- Cook with it
- Use it for Animal Litter

DO

- Wash work clothes separately
- Dispose of waste in an approved landfill

For more information FREE PHONE 1800 134 096 or visit www.preservedwood.com.au

"YOUR QUALITY GUARANTEE"

Legislation was passed 7th June 2006, affecting the way in which C.C.A products are to be used in certain applications. The A.P.V.M.A (Agricultural Pesticides and Veterinary Medicines Authority) ruled that C.C.A, (as from the 7th June 2006) cannot be manufactured for use in the following applications:

- Handrails
- Timber decking's (domestic use only)
- Outdoor furniture
- Kids cubby house and other kids play equipment

The APVMA have also stated that there is no concern regarding existing structures. (That is, there is no requirement for removal).

The good news is that Waterhouse Treated Pine can continue to provide these products to you in an alternative form of timber treatment. A.C.Q (Alkaline Copper and Quaternary). A.C.Q is a product that substitutes C.C.A for the above mentioned applications. Whilst certain applications require the new form of treatment, C.C.A will continue to be used for most product applications. C.C.A has no proven or scientifically based argument relative to the safety of its use in the applications where legislation has prohibited its use. APMVA ruled that the 4 categories listed (above) will use an alternative form of timber preservative as a "precautionary measure".

You can be assured that, Waterhouse Treated Pine will provide you with the correct product for the application you require. The right advice, the right product and the right price!

SAWN OR DRESSED TIMBER

Note all timber available in the following lengths:

.3, .6, .9, 1.2, 1.5, 1.8, 2.1, 2.4, 2.7, 3.0, 3.6, 4.2, 4.8, 5.4, 6.0

Sawn/Dressed Timber prices per lineal metre. Pack lots discount available. (Lengths may be subject to availability)

Bollard and Safety Rail - Lookout, Roxburgh Park.

Walkway and wildlife observatorium - Lilydale Lake.
